

LOOKS SO GOOD

Discography section- move information underneath the albums (set up in grid like members tab), make it so there's less navigation and just able to scroll through, organize by year

Members section- organize by year born or unit they're in, hover idea is really cool!

Awards section- keep simple and straightforward- pictures aren't necessary; use sticky method to keep awards, ceremony, and year subject line at the top while scrolling through

Typeface for tabs a little hard to read bc of contrast - roboto, maybe have it match typeface featured in the logo
