Project Title: Seventeen

I would like to build a website about Seventeen, a K-Pop boy group founded in 2015. I want to create a multi-page website with button navigation. The pages will be on different topics about Seventeen, for example, their different eras/songs, their debut story, and more.

- **Home Page/Introduction:** Who is Seventeen?
    - Brief overview of origin story to current
- **2015-2018 discography**
- **2018-2021 discography**
- **Member profiles**
- **Awards won**
- **Sources**- https://en.wikipedia.org/wiki/Seventeen_(South_Korean_band), https://carat.fandom.com/wiki/SEVENTEEN
